Concerned your kids think betting on sport is normal?

The first generation to grow up with sports betting ads – young men (18 to 24 years) – make up a third of sports bettors in Victoria, and participation by young women is rising.*

Start a conversation with the young people in your life today about the risks associated with sports betting, by asking:

- What do you think about all the betting ads on TV?
- What are some of the risks involved in sports betting?
- Why do people bet on sport?
