

WFNL Junior Girls Development Player Policy Update November 2024

Junior Girls Development Policy (Under 10 Girls & Mixed, Under 12 Girls & Mixed, Under 14 Girls & Mixed and Under 16 Girls)

Design & Intention

This policy is designed to remove some participation barriers that stop Junior Girls from playing Football, and therefore inhibit this stage of the growth of Junior Girls' football in our League.

This policy intends to enable junior girls who are new to football (either never played or very early in their football journey) to start/continue playing football.

Application Process

- To be eligible for an exemption, a player must be no older than one (1) year older than the age group they are requesting an exemption for.
- i.e. player turning 17 years of age in the competition year may apply to play in the Under 16 Girls competition which is no more than one (1) year older.
- The WFNL is allowing up to a maximum of three (3) upper-age players per team to play in the junior girls or mixed competitions. This exemption will be assessed subject to the below conditions.
- Whilst the WFNL may approve more than three (3) upper-age players per club in line with the above criteria, a maximum of three (3) upper-age players may participate for anyone (1) team in any one (1) match.

League Considerations

- The effect of the Player's playing inexperience on their capacity to effectively participate in Australian Football, in particular, their capacity to participate against the oldest Players in their age group
- How it is proposed that the grant of this exemption will support the Player to overcome any barriers to their effective participation in Australian Football
- The safety and welfare of the Player and those Players they will be participating with and against

Player/Club Considerations

- Any player who has played matches in a higher grade/age group before 2025 will not be granted an exemption.
- Any player listed with a Coates League club in 2025 or has previously played a regular season match with a Coates League club will not be granted an exemption.
- Players who have won a WFNL junior league best and fairest in a previous season will not be granted an exemption.
- Any player who has previously played in six (6) or more matches in any previous season(s) may not be granted an exemption.
- Clubs applying for this exemption need to ensure that there are spots available for the player to play down, and this isn't at the expense of another player.
- Clubs applying for this exemption need to ensure there is a team for this player to play in, in the event this request is denied, or the exemption is removed.

If a player who has received an exemption at any time plays in a higher grade/age group (including Under 18 Women & Senior Women) their exemption may be removed.

If a player who has received an exemption at any time receives a red/yellow card or is suspended their exemption may be removed.

The league at any time can remove this exemption.

The application must be made in writing via email submission of the application form to the WFNL Manager - Junior Football at dom.lammardo@wfnl.com.au. During the Home & Away season, for the exemption to be considered before the weekend's fixture, applications need to be made before the close of business on Tuesday.

JUNIOR GIRLS DEVELOPMENT PLAYER EXEMPTION

The _____ Football Club makes this application on behalf of,
Player's Full Name: _____
Date of Birth: ____ / ____ / _____
