

JUNIOR PLAYER POINTS POLICY

2025

For WFNL Club Distribution

For many years WFNL member clubs have identified player movement as a significant factor impacting the evenness of competitions and viability of teams.

This document/policy provides mechanisms that will assist in minimising the impact of player movement and the competitiveness of the competition.

AIM

To apply a player points system for the U12 – U16 age groups that will assist in the reduction of player movement from Club to Club within the Western Football Netball League (WFNL). This will contribute to creating evenness amongst teams and more even, competitive competitions.

APPLICATION OF POINTS

PLAYER

Every WFNL player in the U12 – U16 age groups will attract 'player points' based on the category that they fit into as outlined below.

Players' points will only apply to registered WFNL competition players and players who transfer from one WFNL club to another in any given year.

For every season that a player remains at their WFNL Club (must have played at least 5 games for that Club in the previous year) they will have a reduction of one (1) point for a year of service deduction until they reach one (1) point.

Publication Date: October 2024

TEAM

WFNL teams in the U12 – U16 age groups can only play with a maximum of ten (10) points of transfer players in any given match unless the League has granted the club dispensation in writing.

For administrative purposes the team sheet will not be capped however the Registrar/Team Manager will be required to ensure that they have no more than ten (10) points worth of transfer players on the team sheet for any given match.

RESPONSIBILITY

The club is responsible for monitoring the number of points transferred into a team so that the total number of transfer points on match day does not exceed ten (10).

It is the team manager's responsibility to ensure that they do not have more than ten (10) points of transfer players selected on a team sheet for any given match throughout the season.

SANCTIONS

Clubs that have teams that play more than the allowed ten (10) player points for any given match without receiving a written dispensation from the League will be deemed to be playing a non-eligible player per by-law 4.2 – 'Unregistered or ineligible player.'

Matches, where a team has been deemed to have played a non-eligible player as per above, will not count toward the season of service games tally.
